

## About Our Doctors

**Dr. Arnold Weiss** is a 1973 graduate of New York University College of Dentistry. He completed his training in Pediatric Dentistry at Boston University School of Graduate Dentistry. Dr. Weiss is an Assistant Professor in Pediatric Dentistry at Tufts University School of Dental Medicine. Dr. Weiss is active in the American Academy of Pediatric Dentistry and lectures nationally and internationally to physicians and dentists.

**Dr. Wesley Barton** is a 2007 graduate from The University of Pennsylvania School of Dental Medicine. He completed his pediatric training at the University of Rochester Eastman Dental Center. He is a Board Certified pediatric dentist, a member of the ADA, MDS, and the American Academy of Pediatric Dentistry. Dr. Barton is a native of Scarsdale, NY.

**Dr. Ronen Krausz** graduated in 2006 from the University of Southern California School of Dentistry. He completed his Pediatric Dental training at Boston University School of Dental Medicine. Dr. Krausz is a Board Certified pediatric dentist, and a member of the AAPD, MDS, and ADA.

**Dr. Talia Miller** graduated in 2009 from Boston University School of Dental Medicine. She completed her pediatric training there as well in 2012.

**Dr. Roger Taylor** graduated Phi Beta Kappa from the University of Florida in 1986. He continued his studies at the University of Florida College of Dentistry where he received his Doctorate in Dental Medicine with honors in 1991. After graduating from his orthodontic residency at Boston University, Dr. Taylor practiced in South Florida for 17 years treating both children and adults.

**Our Practice** is an extern site to teach our techniques of caring for children to third year students from Tufts University School of Dental Medicine, Boston University School of Medicine, Boston University School of Dental Medicine and The New England School of Optometry.

## Location

Our office is conveniently located at:  
1560 Beacon Street, Brookline, MA, 02446

- ◆ Parking is located on both sides of Beacon Street and Lancaster Terrace
- ◆ The office is easily accessible by MBTA Green Line - C train (Cleveland Circle) at The Fairbanks Street Stop.

## Business Hours

Monday	8 to 1	2 to 5
Tuesday	8 to 1	2 to 5
Wednesday	8 to 1	2 to 6
Thursday	7:30 to 1	1:30 to 4
Friday	7:30 to 1	1:30 to 4

The office is closed on weekends and major holidays. We are also closed when our doctors and staff are attending continuing education seminars.

We require at least 24 hours notice should you need to change your appointment. This allows us to offer your time to another patient. A fee will be assessed for missed appointments when no notice is given to the office.

## Thank you!

We thank you for choosing our practice for your family's dental health care. We look forward to meeting you and establishing a long and mutually satisfying relationship.

We take pride in our ability to provide the highest quality dental services and will do everything possible to make your experiences pleasant.

# Welcome to our practice!

***“Developing Positive Attitudes for Healthy Smiles”™ is our goal.***

## ***Nothing is more beautiful than a child's smile!***

The Center for PEDIATRIC Dental Care and Orthodontics, devoted to toddlers, children, and teens, has been a provider of quality dentistry since 1975. Partners in the practice, Dr. Weiss and Dr. Barton look forward to continuing to “Develop Positive Attitudes for Healthy Smiles.” Our team of specialists have additional training beyond general dentistry. This training places a major emphasis on the total dental development of children and adolescents. These areas include growth and development, child psychology, pediatric medicine, pediatric restorative dentistry, and orthodontics.

### ***Prevention***

With proper care and preventive dental visits, we can lay the foundation for a lifetime of good dental health. Our office recommends and routinely arranges appointments for continuing care at the completion of your child's visit. All prevention appointments include a complete dental exam, cancer screening, orthodontic charting, brushing and flossing instructions, and a thorough cleaning/fluoride treatment.

### ***We encourage your questions***

Parents are encouraged to call the office with any questions regarding treatment, service, or fees. Our highly qualified clinical and administrative staff is well trained to answer most questions. Any further questions will be addressed to our doctors.

***“Each child is treated as an individual; as a member of our family.”***

Our goal is to teach each child how to have fun in the dental environment and to increase their self image and self esteem. This is the main focus of each Doctor and Team Member every day for every interaction with every patient. The best dental care results from families that work together with us for the entire process and are excited about coming to our office. We know you will appreciate our expertise. We will mutually respect your time, always be accessible, and make you feel at home.

***“Our team's attention to detail is uncompromising...”***

We pride ourselves on our communication with you as well as with other dentists that may be involved in your child's care. In this way, we make sure we all are working together for your benefit. You will be fully informed about all care. We understand it is a privilege to have you choose our office for your child's dental needs, and we look forward to helping you on your journey of dental health.

### ***Practice Mission***

We are a team of uniquely talented and caring individuals who share a common philosophy. We will create a legacy of positive dental experiences. Each child will walk out of the office taller than when they arrived!

***Prevention is step one***

It is very important to protect primary or “baby” teeth. Children with healthy teeth chew food easily, speak clearly and have a great smile. We recommend a first visit by 18 months.

### ***Emergencies***

If an emergency occurs during office hours, please call our office immediately. We reserve special time each day to respond to such needs.

If an emergency arises after office hours, the doctor on call may be reached by our voice mail paging service. Please call our office phone, (617) 731-5437 for recorded instructions.

### ***Finances and Insurances***

Payment is due at the time dental services are performed. For your convenience, we accept cash, check, American Express®, MasterCard® and Visa®.

As an additional practice service, we will file primary insurance as a form of partial payment for our patients. For this courtesy, your non-covered portion is expected at the time of service. Please provide us with complete insurance information **before** your first visit.
